EDUCATION

AKTU

B.TECH IN COMPUTER SCIENCE
 Expected July 2024 | Ghaziabad
 GPA : 8.1

THE SKYLAND SCHOOL

Class 12 , Percentage : 95%
 Class 10 , Percentage : 87.2%

COURSEWORK

UNDERGRADUATE

- Algorithm and Design Analysis
- Database Management System
- Object-Oriented Programming
- Operating System
- Computer Networks

SKILLS

LANGUAGES

C++ • C • Javascript • NodeJS
 SQL

FRAMEWORKS

ExpressJS • ReactJS • NextJS

TOOLS

Git • Github • GitLab • AWS
 Postman • Swagger • MongoDB
 JIRA

POSITION OF

RESPONSIBILITY

- Senior Student Coordinator in CSI (Computer Society of India) . Mentors team on technology best practices.
- Orchestrated and managed a React Workshop
- Organized a Hackathon (Code-A-THON) for college students in which 10 teams were selected.

EXPERIENCE

DEVTOWN | Software Developer

NodeJS | AWS | MongoDB | SWAGGER API | NextJs | Puppeteer
 March 2023 - Present | Remote

- Designed architecture and schema for two projects, ensuring efficient data management and performance. Implemented AWS CodePipeline for automated deployments.
- Integrated Razorpayment and webhooks, reducing manual revenue calculation by **80%**
- Led the development of an Internship portal and Sales Portal and worked with Puppeteer to automate the testing.

ENGINEERHUB | Backend Developer

NodeJS | ExpressJS | MongoDB | JWT | Amazon Web Services (AWS)
 July 2022 - Jan 2023 | Remote

- Constructed the backend of the company website and app from scratch
- Designed the project's flow and schema with a focused objective: preparing the groundwork for the Minimum Viable Product (MVP).
- Implemented JWT for stateless authentication mechanisms.

DUCKCART | NodeJS Developer

NodeJS | ExpressJS | MongoDB | JWT
 Oct 2022 - Dec 2022 | Remote

- Engineered REST APIs for different Functionalities.
- Rectified bugs in existing APIs, leading to a **50%** reduction in user-reported issues and enhancing the overall stability of the application.

ACHIEVEMENTS

- Solved 250+ data structures and algorithms problems on various coding platforms.
- Got 100 days of code badge on leetcode.
- Ranked in Top 10 among 120+ teams in **72hrs HACKATHON 7.0, UPES.**
- Contributed to Hacktoberfest 2022 and got my 5 PRs merged.
- Participated in National Level Hackathon 2022.

PROJECTS

EXAM PORTAL

NodeJS | ReactJs | ExpressJS | MongoDB | JWT

- A MCQ-based software to recruit 2nd year students in the college technical society.
- Designed separate admin and user interfaces for efficient management and usage.
- Implemented multiple APIs for seamless integration with the front end.
- **Authentication:** Implemented this using JWT authentication.

AUTH APIS

NodeJS | ExpressJS | MongoDB | JWT

- Implemented APIs for login and registration using JWT .
- Added functionalities such as OTP generation to verify user email and mobile number and added API for forgetting passwords.
